

NATURAL DISINFECTANT

Food Contact Safe

SPECIAL FEATURES

- ✓ Effective against E-Coli, Salmonella, Legionella, Listeria, Biofilm, Fungus
- ✓ Multi surface disinfection including food preparation and production. No rinse required
- ✓ Disinfect hands. Non-toxic and No irritation
- ✓ Disinfect all high-touch surfaces (door handles, lift buttons, light switches, handrails, POS systems, remote controls, faucets)
- ✓ Ideal for CIP cleaning. No rinse required
- ✓ Disinfect water systems to prevent Legionella

OVERVIEW

ASPIDA is an all-natural disinfectant product that is highly effective while being very safe to use around humans and food.

ASPIDA is produced in Vietnam using Technology imported from the U.K. The active ingredient in ASPIDA is Hypochlorous Acid, sometimes referred to as HOCL.

HOCL has been recognised in the USA and EU as a high-level disinfectant and a food processing aid, including the washing of raw foods that are to be consumed without processing.

HOCL is approved for use in organic food production

ASPIDA has been independently tested by laboratories all over the world, including Vietnam. Our science and disinfection claims are also supported by world class scientists

SPECIFICATION

Technology	ASPIDA Natural Disinfectant
Sizes	50ml, 500ml, 5L, 20L
Active Ingredient	HOCL (Hypochlorous Acid) 200ppm
Food Contact Safe	Yes
No Rinse Required	Yes
Non Toxic	Yes
Non Hazardous	Yes
No Irritation	Yes
Non Flammable	Yes
Safety	No special safety measures required. Always Read the Product Label and Safety Data Sheet
Approved for use in Organic food production	Yes
Ready to Use	Yes
Shelf Life	1 Year if stored correctly
Storage	At room temperature <30°. Do not store in direct sunlight
Directions	Spray ASPIDA onto the area requiring disinfection or apply with a clean cloth. Use a clean cloth to dry the treated area
